Rushing Announces USGBC Caribbean Speaker

(SEATTLE) – Rushing, a Seattle engineering and sustainability consulting firm, announces that Alexandra Ramsden was invited as a guest lecturer at the United States Green Building Council's Caribbean Chapter Green Building Symposium and Annual Assembly in San Juan, Puerto Rico on December 5, 2009.

In an effort to further their green building knowledge, the Caribbean USGBC Chapter looked to the Pacific Northwest and invited Rushing's Blackbird Studio Lead, Alexandra Ramsden, to speak at the their 2009 Caribbean Green Building Symposium and Annual Assembly in Puerto Rico. Alexandra flew to Puerto Rico last week and gave a presentation on "Net Zero Buildings: Going Beyond LEED to the Next Frontier of Green Building". The Caribbean audience loved it and she was asked to come back and speak at future venues.

Rushing is a Seattle-based Women Business Enterprise (WBE) certified consulting firm providing mechanical and electrical engineering, and sustainability management. www.rushingco.com
